CMI Drug Testing is a full-service Third-Party Administrator (TPA) with customers located throughout the United States. We have set up a network of around 15,000 clinics that can service our clients' locations. CMI Drug Testing offers a fixed fee for both drug and alcohol testing and for both DOT and Non-DOT testing your cost includes all costs that may be incurred during normal business hours. Our staff is available 24/7/365 to assist with post-accident testing and we will always answer your telephone call.   CMI Drug Testing uses an online system and through our portal you will be able to access your records, add and delete employees, and set up any drug and/or alcohol test for your drivers or employees.

Another service we offer is background screening. We use IntelliCorp for their services, which is one of the nation's premier providers for these services and are accredited through the Professional Background Screening Association (PBSA). Since 1996, they have worked with law-enforcement agencies nationwide to build a unified data center for criminal records. The unique IntelliCorp technology platform features sophisticated searching and - an industry first - the IntelliSearch "smart recommendation" model.

CMI Drug Testing offers outstanding customer service, and we pride ourselves on always being available when you need us.   I would appreciate the opportunity to provide you with a proposal about our DOT & Non-DOT Drug Testing program. Please call or text me at 817-905-1557 or email me at alan@cmidrugtesting.com so I can provide information about our services and fees.

Thank You,

Alan Teichelman
National Sales Manager
