

# FEATURE SPOTLIGHT

# LEARNING PATHWAY

## Automated Progressive Training

*Deliver the right training at the right time with Learning Pathway, an Infiniti-I learning management system feature that makes it easy to manage progressive, triggered training plans.*

## At a Glance

- ✔ Automate Large Training Plans
- ✔ Control the Order of Training
- ✔ Set Employee Development Tracks
- ✔ Build Levels of Expertise

## Benefits

Break up large training plans into manageable sections to improve participation and comprehension. Automatic triggers and notifications save time and ensure consistency without worry.

# FEATURE SPOTLIGHT

## LEARNING PATHWAY

*Rest easy knowing your training is moving along at the right pace.*

### Build Your Templates

# 1

“A winning effort begins with preparation”  
- Joe Gibbs, NFL Coach of the Year 1982 & 1983

Start by building Templates—one for each step in your Pathway. Templates can contain as many videos and PDFs as you need.

### Build Your Path & Set Triggers

# 2

Assignments in your Pathway can be triggered by:

- Assignment Status
  - Attempted
  - Completed
- # of Days After
  - Start Date
  - Attempt Date
  - Completion Date

### Fire & Forget

# 3

Assignments automatically appear in Users' classrooms.

Notifications automatically alert Users. Reporting automatically tracks attempts, completions, and scores.

You can spend time focused on all your other responsibilities.
